Honorable William Casey
Director
Central Intelligence Agency
Washington, DC 20505

Dear Mr. Casey:

It gives me great pleasure to invite you to attend our next CSIS Science and Technology Seminar on October 9 with James M. Beggs, the Administrator of the National Aeronautical and Space Administration.

After 25 years of research exploration and technological development, the space age has reached a level of maturity that offers extraordinary opportunities to the private sector. Administrator Beggs, with major federal responsibility for bringing this new program initiative to fruition, will be addressing the issues of policy and practice that surround the prospects for commercial and industrial exploitation of the space environment.

The meeting will be held in the Wadsworth Room of the International Club (1800 K Street, N.W.) from 4 to 5:30 p.m. A response card has been enclosed for your convenience.

Sincerely,

A handwritten signature in dark ink, appearing to read "Robert H. Kupperman", is written over the typed name and title.

Robert H. Kupperman
